\* TESTED TO \*

EN13697, EN1276 & EN1650 STANDARD AGAINST BACTERIA & FUNGI

FIGHTBAC Anti-Bacterial Surface Cleaner is a readily biodegradable, ecologically friendly high-performance multi-surface disinfectant that remains active for up to 6-hours and is scientifically proven to kill 99.99% of harmful bacteria. Our non-flammable product contains anti-viral and anti-bacterial compounds including **Benzalkonium chloride**, proven to be highly effective in killing bacteria such as e coli and salmonella, fungi and viruses such as SARS, common cold and MRSA. FIGHTBAC is an odourless, colourless and bleach free cleaner that can also be used to sanitise high contact areas such as door handles and light switches. Effective at removing dirt, mould, food residue and grease it can be safely used on multiple hard surfaces including:

- ✓ Kitchen and bathroom surfaces
- ✓ Floors and walls
- ✓ Catering surfaces and equipment
- ✓ Paint, metal, glass, rubber and wood

## HOW TO USE FIGHTBAC SURFACE CLEANER

FIGHTBAC Surface Cleaner is to be used neat as supplied in a trigger spray, by cloth or with a mop. It can be left to dry on surfaces without the need to rinse. When used in catering environments or on surfaces that may come in to contact with food, rinse the product off with fresh water.

**KILLS UP TO 99.99% OF BACTERIA**
